College: SJCIT

Phone: 8050382793

Email: svvarsha2005@gmail.com

INVOICE DETAILS

Invoice Number:	ANGTSAUG2504
Issue Date:	August 25, 2025

SL No.	Project	DESCRIPTION	AMOUNT
1	Ransomeware Using CNN	This project focuses on using Deep Learning (Convolutional Neural Networks – CNNs) for automatic ransomware attack detection. Unlike traditional antivirus systems that rely only on signatures, our system analyzes executables as images to detect even new or obfuscated malware.	₹7,500.00

PAID AMOUNT IN WORDS
Three Thousand Rupees Only

Subtotal:	₹7,500.00
Paid:	₹3,000.00
Balance:	₹4,500.00

TERMS AND CONDITIONS
The Services outlined in this invoice include the development, implementation, and delivery of the project solution as described. Any additional services outside the agreed scope will be subject to separate negotiation and additional costs.
